Lamia, Isabella, The Eve of St Agnes and Other Poems-John Keats 2017-08-24 In the summer of 1820, Keats published this collection, his third and final volume of poetry. A few months earlier, he had started coughing up blood; the following February, he would die of tuberculosis in Rome, aged just twenty-five. This volume contains his greatest work, written in an astonishing burst of creative genius in 1819. It includes 'Lamia', his tale of love and betrayal in ancient Corinth; the haunting medieval romance of 'The Eve of St Agnes'; and his six famous odes, now considered among the most famous verse in the language.

Keats's Anatomy of Melancholy-White Robert White 2020-09-09 A detailed study of John Keats's classic volume of poetry published in 1820 considered in the light of the history of melancholyFirst, book-length critical study of John Keats's collection of poems, Lamia, Isabella, The Eve of St Agnes, And Other Poems (1820)Considers the anthology as a poetically and thematically unified collection, instead of the more usual method of analyzing the poems in chronological order of writingProposes that the main theme running through the volume is melancholy, a very capacious medical category extending back to ancient Greco-Roman writers, through the Renaissance, and the subject of literary cults in the Romantic ageThe first detailed study of Keats's markings and annotations on his copy of Robert Burton's The Anatomy of Melancholy (1621) which was his favourite book during 1819 when he was writing the poemsThis book examines John Keats's immensely important collection of poems, Lamia, Isabella, The Eve of St Agnes, And Other Poems (1820), and is published in the volume's bicentenary. It analyses the collection as an authorially organised and multi-dimensionally unified volume rather than as a collection of occasional poems. R. S. White argues that a guiding theme behind the 1820 volume is the persistent emphasis on different types of melancholy, an ancient, all-consuming medical condition and literary preoccupation in Renaissance and Romantic poetry. Melancholy was a lifelong interest of Keats's, touching on his medical training, his temperament and his delighted reading in 1819 of Burton's The Anatomy of Melancholy.

Lamia, Isabella, the Eve of St. Agnes, Hyperion and Other Poems—John Keats

2015-07-19 Lamia, Isabella, the Eve of St. Agnes, Hyperion and Other Poems is a collection of poems by the English Romantic poet, John Keats. He was one of the main figures of the second generation of Romantic poets along with Lord Byron and Percy Bysshe Shelley, despite his work having been in publication for only four years before his death. Although his poems were not generally well received by critics during his life, his reputation grew after his death, so that by the end of the 19th century, he had become one of the most beloved of all English poets. He had a significant influence on a diverse range of poets and writers. Jorge Luis Borges stated that his first encounter with Keats was the most significant literary experience of his life. The poetry of Keats is characterised by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analysed in English literature.

In June 1820 appeared Keats’ third work, Lamia, Isabella, The Eve of St. Agnes, and other poems, which placed him in the first rank of English writers. I will quote briefly the criticisms of two masters.

Hyperion; Isabella; The Eve of St. Agnes; Lamia

In the last eighteen months Of his school life, however, he turned studious, read at meal-times, did holiday tasks, devoured dictionaries of classical mythology, and became friendly with Charles Cowden Clarke, his schoolmaster’s son, who afterwards became a literary man of some standing and who continued to foster Keats’s love of poetry after the boy left school. This he did at the age of fifteen, his father and his mother being then both dead - the mother, of consumption. Keats was apprenticed to a surgeon, but left him before the close of the apprenticeship, and took to walking St. Thomas's Hospital; he passed the usual examination in 1815, and became a dresser at Guy's Hospital.
