In Caesars Shadow The Life Of General Robert Eichelberger

In Caesar's Shadow-Paul Chwialkowski 1993 The only in-depth biography of General Robert Eichelberger, MacArthur's "number one" fighting general and one of the least recognized commanders in World War II.

Caesar-Adrian Goldsworthy 2013-04-18 The story of one of the most brilliant, flamboyant and historically important men who ever lived. 'A superb achievement' LITERARY REVIEW 'Combines scholarship with storytelling to bring the ancient world to life: in his masterly new CAESAR he shows us the greatest Roman as man, statesman, soldier and lover' Simon Sebag Montefiore 'Magnificent' DAILY TELEGRAPH From the very beginning, Caesar's story makes dazzling reading. In his late teens he narrowly avoided execution for opposing the military dictator Sulla. He was decorated for valour in battle, captured and held to
ransom by pirates, and almost bankrupted himself by staging games for the masses. As a politician, he quickly gained a reputation as a dangerously ambitious maverick. By his early 30s he had risen to the position of Consul, and was already beginning to dominate the Senate. His affairs with noblewomen were both frequent and scandalous. His greatest skill, outside the bedroom, was as a military commander. In a string of spectacular victories he conquered all of Gaul, invaded Germany, and twice landed in Britain - an achievement which in 55BC was greeted with a public euphoria comparable to that generated by the moon landing in 1969. In just thirty years he had risen from a position of virtual obscurity to become one of the richest men in the world, with the power single-handedly to overthrow the Republic. By his death he was effectively emperor of most of the known world.

**Daughters of Shadow and Blood - Book II**

J. Matthew Saunders 2016-04-29 Gracanica.

Kosovo, 1689: Elena, an Albanian peasant girl, has sacrificed her own future to keep her family from starving, but one horrific night they are taken from her, murdered by monsters out of her nightmares. She seeks refuge at the nearby monastery, where she meets Stjepan, a Serbian monk familiar with creatures that stalk the night. Elena longs to return to her farm, but piecing her life back together may be impossible. Stjepan draws her into a dark conspiracy involving an ancient brotherhood, and as war looms, a stranger named Lek appears, threatening to overturn everything she thought she knew about her family and
herself. Sarajevo, Bosnia and Herzegovina, 1999: Since surviving the showdown between the vampire Yasamin and the terrorist group S leyman's Blade, Adam Mire has lived in hiding, posing as an unassuming Czech librarian. His life is upended again, however, when a new threat arises—one intent on using Dracula's legacy to unleash another wave of violence across the already war-ravaged nation. Meanwhile, Clara MacIntosh, the love Adam left behind, has come to Eastern Europe to find him. While tracking him down, she becomes entangled in a string of grisly murders—deaths Adam is investigating as well. As they both follow clues literally written in blood, time runs short to unmask the killer before history comes full-circle and chaos engulfs the region again.

In the Shadows of Victory II—Thomas D. Phillips 2018-01-19 Profiles of twenty US military leaders—unsung heroes whose accomplishments have been too little acknowledged and too seldom celebrated. The military history of the United States is replete with examples of leaders whose singular leadership is now little remembered or forgotten completely. This volume covers more than twenty leaders “in the shadows” during the four major conflicts the United States engaged in from the end of the nineteenth century to the middle years of the twentieth: the Spanish-American War, the Philippine Insurrection, World War I, and World War II. To enable readers to put these exploits into proper context, each chapter traces the roots of the conflict covered and discusses the paths that led to America’s
involvement. Throughout the book, examples are also noted of leaders whose major renown is associated with a specific war—John J. Pershing, America’s towering military figure during World War I, for example—who also rendered exemplary though largely forgotten service during a different conflict—in Pershing’s case, the Philippine Insurrection. Of special interest to many audiences may be the commentaries regarding the World War I services of officers such as Eisenhower, Marshall, Patton, and Bradley—an aspect of their long military careers overshadowed by their World War II renown and too often minimized in consequence. The book also features brief biographies of officers whose contributions, while perhaps a bit less consequential than those of colleagues chronicled elsewhere in these pages, are deserving of far more recognition than has thus far been accorded them. “A worthwhile read for anyone interested in military leadership.” —The NYMAS Review

The Book of Life—Upton Sinclair 2008-08 Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: The Book of the Mind covers such subjects as faith, reason, morality, and the subconscious. Part Two: The Book of the Body develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their cures.
**Allied Occupation of Japan** - Eiji Takemae 2003-01-01 Published to coincide with the 50th anniversary of the end of the American-led Allied Occupation of Japan (1945-52), The Allied Occupation of Japan is a sweeping history of the revolutionary reforms that transformed Japan and the remarkable men and women, American and Japanese, who implemented them.

**Sunlit Shadow Dance** - Graham Wilson 2017-08-09 The girl you love vanishes - you search and search. No trace is found. You see someone who looks so like her - she looks at you but does not know you, no recognition flickers. Is it a mirage, dream or desperate hope? She likes you. You ask and she comes with you. Her mind sees only sunlight. You see dark shadowed edges. Can you remake your life with a person who holds no memory of you? An unknown girl appears on an aboriginal community in far north Queensland. She has no memory of any life before, no one knows her. The people in the community say she just arrived one day. Who is she? Where has she come from? She looks like a missing backpacker, Susan, but her name is Jane. Her past life is an unknown place from where she knows no one. She is trying to make a new life without any connections to her past. This is the final book of the Crocodile Spirit Dreaming Series. It tells the story of an English backpacker who went travelling in Outback Australia with a man who loved crocodiles, and how her life turned into a horror nightmare. She finally gets her freedom only to disappear.
Her name was Susan. She was on trial for murder when she vanished. She had been just released on bail, despite pleading guilty, when new evidence indicating self-defense was found. She was also pregnant and expecting twins. Since she disappeared only a pair of shoes she was wearing have been found. They were next to a waterhole full of crocodiles. It is feared that she and her unborn children are dead, taken by crocodiles. More than a year has passed without any other trace of her. An inquest has made an open finding on her disappearance. Is there a link between missing Susan and this girl, Jane, who turns up out of nowhere, knowing no one, remembering nothing? Can this girl, Jane, build a new and happy life with her two small children. Can whatever tragedy haunted her past be overcome? This is the story of the remaking of a new life from the broken shell of the old - and how memories of the old threaten to tear apart the new. And at the dark edge lurks an ancient creature of the deep, a being whose lineage is the long lost Australian Aboriginal Dreamtime, the time when the spirits made this land. Yet beyond this dark is a new place where sunlit shadows dance.

In the Shadow of Caesar - David E. Gray 2013-05-30 If you believe what the sources have to say about Marcus Crassus, he was a cruel general, a money loving miser, and only had interest in furthering his own political career. This book serves as an attempt to right some of those lies, innuendos, and slanders by presenting an alternative view of his life and
reexamining the 'primary' and secondary sources to gain a better understanding of just who Crassus was.

Elements of Life-Inderjit Kaur 2014-12-24 How much do we know ourselves is critically very important and perhaps very essential. Life we do face many curves up and down while in course of life. Marriage, becoming parent, life traumas and recoveries, retiring from jobs, empty nest, loss of relations, death of beloved. So yes various experiences... We get tired sometimes and immediately ask a question "why me?," but do remember the universe is not short of any wakeup calls we are just very quick in reactions. The four elements of life Air, Water, Earth, Fire are the only truth which than render the whole meaning of being as a human. Are we authentic? Are we living in courage? Are we kind and in patience? Are we grateful? How we face life and respond to life is all that matters. Elements of Life explores the options and choices which will help you to live more in tune with what you want from life. Motivational chapters simple questions based on elements of life - air, fire, water and earth providing simple strategies of life help you to live in harmony with yourself, others and the world, enhancing you to be true to your values and to interact with others while being In more patience. To do otherwise is to foster discontentment and unhappiness, but everyone wants to be in peace and lead a happy life in the end of the day. Living in moderation balancing all the elements of being authentic, being in peace, being grateful,
being a little more compassionate can improve the very purpose of being in this awesome life.

Eichelberger - Intrepidity, Iron Will, And Intellect: General Robert L. Eichelberger And Military Genius-Major Matthew H. Fath 2015-11-06 There are currently two contradictory schools of thought in the historiography of General Robert L. Eichelberger’s generalship. One group of authors, John Shortal and Jay Luvaas, consider Eichelberger a brilliant World War II commander. Another author, Paul Chwialkowski, believes Eichelberger to be good, but not distinguished. This study attempts to develop a concise judgment of Eichelberger’s leadership. The research analyzed Eichelberger’s generalship using Clausewitz’s theory of military genius as a model. The first step was to define military genius and to determine its components and subcomponents. Next, Eichelberger’s pre-World War II education, mentorship, and training experiences were evaluated. The third step was to analyze Eichelberger’s generalship during the Papua New Guinea, Netherlands New Guinea, and Philippines Campaigns of World War II to determine if he consistently demonstrated the qualities of military genius. This study concluded that Eichelberger definitively displayed the components of courage and determination but a judgment on his coup d’œil required a more detailed examination and warranted further research. Eichelberger’s leadership is relevant to today’s military officer because he successfully
defeated an enemy who employed many asymmetrical tactics of potential enemies in the contemporary operating environment: anti-access denial, defense in complex terrain, and fanatical fighting abilities.

The Exclusion of Black Soldiers from the Medal of Honor in World War II-Elliott V. Converse 2015-06-14 The purpose of this study, commissioned by the Army, was to document the process by which the Congressional Medal of Honor was awarded from December 7, 1941, through September 1, 1948; to identify units in which African Americans served; to identify by name all black soldiers whose names were submitted for the medal and to document any errors in the processing of their nominations; and to compile a list of all black soldiers who received the Distinguished Service Cross, the second highest award. Based on this work, in January 1997 President Clinton awarded seven African Americans the Medal of Honor. The authors were selected by Shaw University of Raleigh, North Carolina, to conduct this study under a United States Army contract.

Bellitivus-Charles L. Lonardo 2008-12 ROME, 59 BC. This story is filled with epic battles, gladiatorial spectacle, romance and vengeance. Driven by greed and the lust for power Julius Caesar and Senator Junius Brutus will stop at nothing to become absolute ruler of
Rome. Bellitivus a frail sixteen-year-old boy rises up through the ranks of the Legions becoming Caesar's most valuable ally. He leads Caesar's army to victory and defeats Rome's Gladiator champion to help Caesar gain control of the Republic. Bellitivus and his family are drawn into Caesar's political conflict with Brutus. Brutus and his co-conspirators assassinate Caesar and critically wound Bellitivus. Suffering from amnesia Bellitivus ends up as a slave in the Persian Empire. Brutus becomes Dictator of Rome. In the end Bellitivus must fight his fiercest battle and overcome his greatest obstacle to see his family again and to gain a final showdown with Brutus to avenge Caesar's death.

The Second World War—Jeremy Black 2017-05-15 World War II defined the 20th century and shaped the contemporary world; from the decolonization of Africa to the rise and fall of the Berlin Wall. This comprehensive series, edited by one of the world's leading military historians, offers a focused overview of this complex and volatile era, taking into account the political, economic and social factors, as well as military circumstances of the road to war and its consequences. Augmented by a full length and detailed introduction by the editor, each volume gathers together the seminal articles on specific arenas of the war, providing a convenient and essential resource for researchers and general readers alike.
Jeremy Ruhl, the Life and Times Of-Ryan Orr 2012-10-01 Little Boys have secrets, Most secrets don't hurt, Men in high places want this secret - They will Kill for it - The First Book of the Jeremy Ruhl saga! The son of the English explorer Lord Baron Ruhl, Jeremy Ruhl, is lost in America. In the late 1800's The civil war is over, balloons dot the skies of Europe, and a boy begins an adventure! The original masterpiece of Action and adventure as Jeremy Ruhl, raised as a prince, and his friends want to find adventure, their adventure turns into a nightmare because of a secret Jeremy does not even know about, and people will kill for for that secret. 412 Pages of pure action and adventure. Rated YA 10 and up, some mild violence.

Military Review- 1994

Professional Journal of the United States Army- 1994

Air University Library Index to Military Periodicals- 1994
Scientific Information in Wartime - Pamela Spence Richards 1994 This book describes how the Allied and German leadership built scientific supply systems during World War II; systems that survived into the postwar era.

The "casualty Issue" in American Military Practice - Evan Andrew Huelfer 2003 Currently a major on active duty with the U.S. Army, Huelfer served as lead planner for the Coalition Forces Land Component Command in Kuwait in 2003. He argues that casualty aversion is not a new phenomenon in American history. Examining the "casualty issue" during the years between the World Wars, he finds that Americans demonstrated a strong aversion to combat casualties at that time, which visibly influenced the U.S. Army corps and its officers. The text considers the social, political, and cultural conditions of the 1920s and 1930s which influenced the formation of strategic planning, force modernization, and rearmament for World War II. Annotation 2004 Book News, Inc., Portland, OR (booknews.com).

Guardians of Empire - Brian McAllister Linn 2000-11-09 In a comprehensive study of four decades of military policy, Brian McAllister Linn offers the first detailed history of the U.S. Army in Hawaii and the Philippines between 1902 and 1940. Most accounts focus on the
months preceding the Japanese attack on Pearl Harbor. By examining the years prior to the outbreak of war, Linn provides a new perspective on the complex evolution of events in the Pacific. Exhaustively researched, Guardians of Empire traces the development of U.S. defense policy in the region, concentrating on strategy, tactics, internal security, relations with local communities, and military technology. Linn challenges earlier studies which argue that army officers either ignored or denigrated the Japanese threat and remained unprepared for war. He demonstrates instead that from 1907 onward military commanders in both Washington and the Pacific were vividly aware of the danger, that they developed a series of plans to avert it, and that they in fact identified—even if they could not solve—many of the problems that would become tragically apparent on 7 December 1941.

Fire and Fortitude-John C. McManus 2019-07-30 WINNER OF THE GILDER LEHRMAN PRIZE FOR MILITARY HISTORY An engrossing, epic history of the US Army in the Pacific War, from the acclaimed author of The Dead and Those About to Die “This eloquent and powerful narrative is military history written the way it should be.”—James M. McPherson, Pulitzer Prize-winning historian "Out here, mention is seldom seen of the achievements of the Army ground troops," wrote one officer in the fall of 1943, "whereas the Marines are blown up to the skies." Even today, the Marines are celebrated as the victors of the Pacific, a reflection of a well-deserved reputation for valor. Yet the majority of fighting and dying in
the war against Japan was done not by Marines but by unsung Army soldiers. John C. McManus, one of our most highly acclaimed historians of World War II, takes readers from Pearl Harbor—a rude awakening for a military woefully unprepared for war—to Makin, a sliver of coral reef where the Army was tested against the increasingly desperate Japanese. In between were nearly two years of punishing combat as the Army transformed, at times unsteadily, from an undertrained garrison force into an unstoppable juggernaut, and America evolved from an inward-looking nation into a global superpower. At the pinnacle of this richly told story are the generals: Douglas MacArthur, a military autocrat driven by his dysfunctional lust for fame and power; Robert Eichelberger, perhaps the greatest commander in the theater yet consigned to obscurity by MacArthur's jealousy; "Vinegar Joe" Stillwell, a prickly soldier miscast in a diplomat's role; and Walter Krueger, a German-born officer who came to lead the largest American ground force in the Pacific. Enriching the narrative are the voices of men otherwise lost to history: the uncelebrated Army grunts who endured stifling temperatures, apocalyptic tropical storms, rampant malaria and other diseases, as well as a fanatical enemy bent on total destruction. This is an essential, ambitious book, the first of three volumes, a compellingly written and boldly revisionist account of a war that reshaped the American military and the globe and continues to resonate today. INCLUDES MAPS AND PHOTOS
White Terror-Jamie Bisher 2006-01-16 This is the gripping story of a forgotten Russia in turmoil, when the line between government and organized crime blurred into a chaotic continuum of kleptocracy, vengeance and sadism. It tells the tale of how, in the last days of 1917, a fugitive Cossack captain brashly led seven cohorts into a mutinous garrison at Manchuli, a squalid bordertown on Russia's frontier with Manchuria. The garrison had gone Red, revolted against its officers, and become a dangerous, ill-disciplined mob. Nevertheless, Cossack Captain Grigori Semionov cleverly harangued the garrison into laying down its arms and boarding a train that carried it back into the Bolsheviks' tenuous territory. Through such bold action, Semionov and a handful of young Cossack brethren established themselves as the warlords of Eastern Siberia and Russia's Pacific maritime provinces during the next bloody year. Like inland pirates, they menaced the Trans-Siberian Railroad with fleets of armoured trains, Cossack cavalry, mercenaries and pressgang cannon fodder. They undermined Admiral Kolchak's White armies, ruthlessly liquidated all Reds, terrorized the population, sold out to the Japanese, and antagonized the American Expeditionary Force and Czech Legion in a frenzied orchestration of the Russian Empire's gotterdammerung. Historians have long recognized that Ataman Semionov and Company were a nasty lot. This book details precisely how nasty they were.

The Founding of Russia's Navy-Edward J. Phillips 1995 This study analyzes the origins
and evolution of Peter the Great's navy.

**United States Army Combat Forces Journal** - 1993

**The A to Z of World War II**-Anne Sharp Wells 2009-09-28 The A to Z of World War II: The War Against Japan traces the brutal conflict from Japan's seizure of Chinese territory in 1931, through the onset of war with the Western Allies in 1941, to the use of atomic weapons by the United States in 1945. It also addresses the aftermath of the war, including the formation of the United Nations and the American occupation of Japan. As the first of two volumes covering World War II, this volume concentrates on the war in Asia and the Pacific so the user benefits from the comprehensive explanations of the people, places, and events that shaped much of that region's 20th-century history.

**Waking to Danger**-Robert A. Rosenbaum 2010 This intriguing study is the first comprehensive survey of American public opinion about Nazi Germany in the prewar years. * Numerous quotations from prominent individuals and reports from contemporary newspapers and periodicals * 15 photographs * A bibliography
The Philippines in World War II, 1941-1945 - 1999 An essential source for those seeking insights into the impact of World War II on Philippine society and the military operations in and around the islands.

Leyte, 1944 - Nathan N. Prefer 2012-12-07 When General Douglas MacArthur arrived in Australia in March 1942, having successfully left the Philippines to organize a new American army, he vowed, "I shall return!" More than two years later he did return, at the head of a large U.S. army to retake the Philippines from the Japanese. The place of his re-invasion was the central Philippine Island of Leyte. Much has been written about the naval Battle of Leyte Gulf that his return provoked, but almost nothing has been written about the three-month long battle to seize Leyte itself. Originally intending to delay the advancing Americans, the Japanese high command decided to make Leyte the "Decisive Battle" for the western Pacific and rushed crack Imperial Army units from Manchuria, Korea, and Japan itself to halt and then overwhelm the Americans on Leyte. As were most battles in the Pacific, it was a long, bloody, and brutal fight. As did the Japanese, the Americans were forced to rush in reinforcements to compensate for the rapid increase in Japanese forces on Leyte. This unique battle also saw a major Japanese counterattack—not a banzai charge, but a carefully thought-out counteroffensive designed to push the Americans off the island and capture the elusive General MacArthur. Both American and Japanese battalions spent days
surrounded by the enemy, often until relieved or overwhelmed. Under General Yamashita’s guidance it also saw a rare deployment of Japanese paratroopers in conjunction with the ground assault offensive. Finally there were more naval and air battles, all designed to protect or cover landing operations of friendly forces. Leyte was a three-dimensional battle, fought with the best both sides had to offer, and did indeed decide the fate of the Philippines in World War II.

The Savage Wars Of Peace - Max Boot 2014-03-11 "Anyone who wants to understand why America has permanently entered a new era in international relations must read [this book] . . . Vividly written and thoroughly researched." -- Los Angeles Times America's "small wars," "imperial war," or, as the Pentagon now terms them, "low-intensity conflicts," have played an essential but little-appreciated role in its growth as a world power. Beginning with Jefferson's expedition against the Barbary pirates, Max Boot tells the exciting stories of our sometimes minor but often bloody landings in Samoa, the Philippines, China, Haiti, the Dominican Republic, Nicaragua, Mexico, Russia, and elsewhere. Along the way he sketches colorful portraits of little-known military heroes such as Stephen Decatur, "Fighting Fred" Funston, and Smedly Butler. This revised and updated edition of Boot's compellingly readable history of the forgotten wars that helped promote America's rise in the lst two centuries includes a wealth of new material, including a chapter on the wars in Iraq and
Afghanistan, and a new afterword on the lessons of the post-9/11 world.

**Tangled Shadows**-Xavier Richards 2014-06-10 A story about romance and everyday life that takes place in the Chicagoland area.

**World War II: The Definitive Encyclopedia and Document Collection [5 volumes]**-Spencer C. Tucker 2016-09-06 With more than 1,700 cross-referenced entries covering every aspect of World War II, the events and developments of the era, and myriad related subjects as well as a documents volume, this is the most comprehensive reference work available on the war. • Provides a clear understanding of the causes of World War II, reaching back to World War I and the role of the Western democracies in its origin • Examines home front developments in major countries during the war, such as race and gender relations in the United States • Recognizes the important roles played by women in the war and describes how the United States mobilized its economy and citizenry for total war • Discusses the Holocaust and establishes responsibility for this genocide • Details the changing attitudes toward the war as expressed in film and literature
American Military Leaders: A-L-John C. Fredriksen 1999 A comprehensive collection of biographies of the most prominent military leaders in American history. * 422 A-Z biographies highlight each individual's background, contributions, and significance to America's fortunes in war * Illustrated * Cites works for further research and includes a list of leaders organized by their military titles

International Encyclopedia of Military History-James C. Bradford 2004-12 With its impressive breadth of coverage – both geographically and chronologically – the International Encyclopedia of Military History is the most up-to-date and inclusive A-Z resource on military history. From uniforms and military insignia worn by combatants to the brilliant military leaders and tacticians who commanded them, the campaigns and wars to the weapons and equipment used in them, this international and multi-cultural two-volume set is an accessible resource combining the latest scholarship in the field with a world perspective on military history.

The Architect of Victory-Peter J. Dean 2011-02-07 Lieutenant General Sir Frank Berryman is one of the most important, yet relatively unknown officers in the history of the Australian Army. Despite his reputedly caustic personality and noted conflicts with some senior
officers, Berryman was crucial to Australia's success during the Second World War. But did the man known as 'Berry the Bastard' deserve his reputation? Bold, calculating and talented, Berryman was at the forefront of operations that led to the defeat of the Japanese, and his operational planning secured Australia's victories at Bardia, Tobruk and in New Guinea during the Pacific War. With access to rare private papers, Peter Dean charts Berryman's special relationships with senior US and Australian officers such as MacArthur, Chamberlin, Blamey, Lavarack and Morshead, and explains why the man poised to become the next Chief of General Staff would never fulfil his ambition.

**Learning Under Fire** James Scott Powell 2010 Thrown into the heart of war with little training--and even less that would apply to the battles in which they were engaged--the units of the 112th Cavalry Regiment faced not only the Japanese enemy, but a rugged environment for which they were ill-prepared. They also grappled with the continuing challenge of learning new military skills and tactics across ever-shifting battlefields. The 112th Cavalry Regiment entered federal service in November 1940 as war clouds gathered thick on the horizon. By July 1942, the 112th was headed for the Pacific theater. As the war neared its end, the regiment again had to shift its focus quickly from an anticipated offensive on the Japanese home islands to becoming part of the occupation force in the land of a conquered enemy. James S. Powell thoroughly mines primary documents and buttresses
his story with pertinent secondary accounts as he explores in detail the ways in which this military unit adapted to the changing demands of its tactical and strategic environment. He demonstrates that this learning was not simply a matter of steadily building on experience and honing relevant skills. It also required discovering shortcomings and promptly taking action to improve—often while in direct contact with the enemy.

West Point History of World War II-The United States Military Academy 2016-11-08 Reader's Digest Endowed Book Fund.

Island Infernos-John C. McManus 2021-11-09 From the author of Fire and Fortitude, the continuation of the US Army's epic crusade in the Pacific War, from the battle of Saipan to the occupation of Japan John C. McManus's award-winning Fire and Fortitude enthralled readers with an unforgettable and authoritative account of the US Army's evolution during the Pacific War, from the devastation of Pearl Harbor to the bloody battle for Makin Island in 1943. Now, in this second and final volume, he follows the Army as they land on Saipan, Guam, and Okinawa, climaxing with the American return to the Philippines, one of the largest, most complex operations in American history and one that would eventually account for one-third of all American casualties in the Pacific-Asia theater. Brilliantly researched and
written, the narrative moves seamlessly from the highest generals to the lowest foot soldiers and in between, capturing the true essence of this horrible conflict. It is a masterful history by one of our finest historians of World War II.

The Scramble for Asia-Marc Gallicchio 2011-11-25 As American generals and diplomats accepted Japan's surrender on the deck of the U.S.S. Missouri in September 1945, allied combatants wrestled for power in the new post-war world. The decisions made to effect Japan's surrender entangled U.S. forces on the mainland of Asia for the next two years, and helped shape the next several decades of international relations in the Far East. Marc Gallicchio expertly examines the diplomatic, military, and economic struggles in which the United States, China, and the Soviet Union were pitted in the immediate aftermath of victory over Japan. The Allied victory was but a prelude to an American search for a lasting peace across Asia, stretching from Korea to Vietnam and out to the Pacific atolls. In seeking to shape events on the mainland, the administration of Harry S. Truman confronted the anomalous nature of American power. The military operations undertaken by the United States in the early days of post-war peace affected developments in Asia in unexpected ways. As Gallicchio makes clear, Americans would soon find that the scramble for Asia from 1945 to 1947 had set the stage for future conflict in the region.
**Historical Dictionary of the U.S. Army**-Jerold E. Brown 2001 Provides clear, authoritative entries on military terms, concepts, arms and equipment, units and organizations, battles, and people who have had a significant impact on the Army.

**Reader's Guide to American History**-Peter J. Parish 2013-06-17 There are so many books on so many aspects of the history of the United States, offering such a wide variety of interpretations, that students, teachers, scholars, and librarians often need help and advice on how to find what they want. The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography. Each of the 600 entries on topics in political, social and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs. The entries are devoted to events and individuals, as well as broader themes, and are written by a team of well over 200 contributors, all scholars of American history.
