Understanding Online Instructional Modeling: Theories and Practices-Zheng, Robert Z. 2007-10-31 Higher education is currently undergoing significant changes, and conditions in higher education reflect changing financial, social, and political conditions, which affect both faculty and students. Both the rising costs of education and changes from brick-and-mortar to technologically-driven programs often lead to a change from the traditional space-and-time bound institution to ones that offer cost-effective technologically enhanced programs. Online learning has become an integral and expansive factor in higher education; both in distance learning and as an adjunct to the traditional classroom. Understanding Online Instructional Modeling: Theories and Practices focuses on both theoretical and practical aspects of online learning by introducing a variety of online instructional models as well as best practices that help educators and professional trainers to better understand the dynamics of online learning.

Handbook of Demonstrations and Activities in the Teaching of Psychology: Personality, abnormal, clinical-counseling, and social-Mark E. Ware 1996 These books provide an invaluable reference for teachers of psychology. The plethora of teaching strategies and techniques discussed should serve to improve the quality of their teaching. For those who teach high school, college, and graduate students in psychology, education, and the social sciences, these volumes present immediate practical applications and rich sources of ideas. They contain the collective experiences of teachers who have successfully dealt with students' difficulty in mastering important concepts about human behavior. Volume 1 addresses teaching strategies for courses that make up the core of most psychology curricula; introductory psychology, statistics, research methods, and the history of psychology. Volume 2 discusses teaching physiology, perception, learning, memory, and developmental psychology. Volume 3 deals with teaching personality, abnormal clinical-counseling, and social psychology. Each volume contains a table listing the articles in that volume and identifying the primary and secondary courses in which each demonstration can be used.

Guidance and Counselling for Children and Adolescents in Schools - Namita Ranganathan 2017-07-04 This book effectively presents an insightful blend of theoretical ideas, practical realities and ways of engaging with children and adolescents. Guidance and Counselling for Children and Adolescents in Schools provides a rich understanding of the challenges, problems and difficulties that children and adolescents face in adjusting to the contexts in which they live, grow and study. All teacher-education programmes expansively define the role of teachers and their responsibility towards guiding and counselling students. This book serves to help student-teachers and in-service teachers to understand their role as counsellors and build perspectives about the mental health concerns of students. Rendering ground realities within theoretical approaches to psychotherapy and mental health, it serves as a useful resource for practitioners and researchers in education. The book is based on more than three decades of experience of the authors in the fields of education and psychology and experiential understanding of contemporary times. Key Features: • Unique approach in correlating real-life situations and experiences to the explanation of theories • Builds understanding about guidance, counselling and mental health issues through a theory-practice interface • Provides anecdotes, case vignettes and narratives to aid self-directed learning of counselling skills • Couched in the contemporary Indian socio-cultural setting

Professional Counseling Excellence through Leadership and Advocacy - Catherine Y. Chang 2012-04-27 This text will be a valuable resource for counseling students and educators to assist in the incorporation of leadership and advocacy training into the counseling curriculum, based on the new standards set forth by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Readers will acquire a broad scope and vision of leadership and advocacy which includes client advocacy, advocacy for the counseling profession, and social justice. It identifies the historical context of leadership and advocacy, provides a framework from which to understand these concepts, and provides concrete examples of leadership and advocacy happening in the field today. Chapters describe the design of an effective counselor education curriculum, supervision of counselors, and leadership and advocacy practice in various counseling settings. Edited by leaders in the field of counselor education and endorsed by Chi Sigma Iota, this text will provide students with the knowledge, skills, and qualities to succeed as leaders and advocates throughout their counseling careers.

DVD Counseling and Psychotherapy Theories in Context and Practice - John Sommers-Flanagan 2011-01-20 Learn the various counseling theories through authentic examples led by actual practitioners working with real clients. This comprehensive two-DVD set promotes student learning by illustrating each of the counseling theories covered in the textbook Counseling and Psychotherapy Theories in Context and Practice, Second Edition by John and Rita Sommers-Flanagan. However, the DVDs can be used in conjunction with this text or as a stand-alone teaching tool in any course covering psychotherapy theories and techniques. Unique in its presentation of real clinicians from a variety of work settings—including school and college counselors—working with actual clients, the DVDs: Feature practitioners and clients who represent ethnic, gender, age, and religious diversity Model how to develop a positive therapeutic relationship from any theoretical perspective Help students not only understand the differences between theories, but also the difference between theory and technique Offer commentary by the authors on how the counselor in the session made decisions from a theoretical perspective as well as why a particular counseling theory was appropriate for the client’s situation. Exploring Psychoanalytic, Adlerian, Existential, Person-Centered, Gestalt, Behavioral, Cognitive-Behavioral, Reality, Feminist, Solution-Focused, and Family Systems theories, these two DVDs shed light on these theories in real practice with clients.
